Using Seesaw for Remote Learning

Action Needed - Set Up Your Child to Learn Remotely with Seesaw

Dear Parents,

Due to the issues we have experienced with Tapestry recently, as you are all too aware, we will now transition to using Seesaw for remote learning. Seesaw helps us work together to provide students with meaningful learning experiences at home. Unfortunately, Tapestry was unable to cope with the number of pupils and staff accessing the platform in the National Lockdown - they assure us that they are working on the issue, but are unable to commit to when improvements will be made. As a result, we believe that we are unable to continue providing a quality remote education for the children using this platform and have taken a decision, following extensive research, to begin using Seesaw. We appreciate that this is yet another change, but are reassured that Seesaw is relatively simple to use. There is a great deal of guidance and some useful instructional videos to make use of.

Your child's teacher will use Seesaw to share learning activities and resources, capture your child's learning, and communicate about progress and needs.

Help your child log into the Seesaw CLASS app at home:

1. For tablets or phones, download the **Seesaw Class App**
For laptop or desktop computers, **go to app.seesaw.me**
2. Your child logs in by clicking **I'm a Student**

We provided a unique Home Learning Code for your child to log in at home: **Enter the text code** or **scan the QR code**

For help getting your child logged in, watch [this video](#). If you have any questions, feel free to email our IT lead -Gina Skinner at gskinner@landkey-primary.devon.sch.uk

Best Wishes,

Kate and Lucy
